

SASHF APPLICATION AS AN ACTIVE BREEDER :

The goal of the SASHF is to develop and athletic sport horse, based on phenotype not genotype. In other words we will not be based on any particular genetic breed profile, but rather on the production of an athletic sport-horse type, which conformational requirements are specifically defined. This could also result in cross-breeding of different foundation breeds suited for this purpose. We also provide a formal registration base for certain breeds that do not have a formal registration “home” in South Africa.

Since we are not a rival organization to any of the Breed Associations, it is therefore quite acceptable for you or any other breeders, to have dual membership. (Your breed association plus SASHF membership).

In keeping with the Animal Improvement Act and its own constitution, the SASHF is affiliated to the SA Stud Book and Animal Improvement Association (registered in terms of Act 62 of 1998) and all our registrations , from birth recordings etc are done through SA Stud Book. If your Breeder Association registered your horses through SA Stud Book, we will accept the registrations and recordings of new foals born or further inspections can then be done by the SASHF. If however, it is found that your horses were not registered through SA Stud Book, they will have to be recorded as First time notifications. We will assist you with that. On receiving your application form, we will verify their registrations with SA Stud Book.

Attached please find the following :

* Membership Application form (Please complete a birth / first time recording form for each horse not previously registered with SA Stud Book , and attach a couple of tail hair with roots in a clean plastic “bank bag”, at the bottom for DNA recording.)

* 2016 Fee structure

On receipt of the above, we will proceed with your registrations, report back to you on progress and confirm the registrations.

Hope to hear from you soon.

(Secretary SASHF)
